“ I met Gary in the mid seventies at a job we had with Duane Marine. We were in the Operating Engineers union of Local 25. We bonded immediately and I can say I had some of the best times of my life with him. We worked together and we played together for a number of years. His dad Charlie also worked with us and I have to say they always had everyone laughing. Gary taught me to be a boat operator at a job we both loved. I got to meet his mom As well for many breakfasts at his house. I was fortunate to have had such memorable times with him. See you down the road my friend.
