“ I had the pleasure of working with Dominic at a new GE powerhouse in New Jersey. He was a consultant and believe me I consulted with him on an hourly basis. His knowledge of turbine installation was incredible. He was a co worker, mentor, and friend. He will be missed by many superintendents and Millwrights on the eastern coast. Rest in peace Dominic 🙏

“ To Dominic’s family, I want to extend my condolences for your loss. For many years I worked side by side with Dominic. He became way more than just a coworker or acquaintance, he became someone I respected, admired, and loved to be around in so many ways. Every time we talked, either about current events or those in the past, he put a smile on my face and made me laugh out loud. Each time we talked, we always talked about our family and how they are doing. To say I will miss our conversations and times together, is an understatement and one I cannot really put to words. I will miss you my friend, our conversations, our friendship, and never forget our times together. Until we see each other again, my brother, Rest in Peace!

“ I was fortunate enough to work with Dominic many times over the years. We shared stories of our "old school" Italian heritage, a love of the areas we grew up in and love of music. He often made me laugh, sometimes cringe, and many times shake my head, but he was always very good to me, making sure I felt safe and comfortable in some of the unfamiliar work sites. He was a man of contradictions, but he really did have a heart of gold . I am sad to know he is gone. Rest in Peace Domo.
