“ *Growing up across the street from Joe was both a gift and an honor. There are so many great memories but a few stand out. I was working in the shop with Joe and carpenter bees would fly down as I went in the door. Joe and his father would make fun of me knowing they're harmless and get a kick out of it. Some great times at the kitchen table cooking and eating dozens of lobsters after Joe came back from a dive. Joe taught me auto body and also how to be a man. He will be missed and never forgotten. I'm posting a few pictures of the 68 Firebird we restored together. Our last project.*
