“ *Rosemary and I lost touch many years ago and I just discovered this page today. We were classmates at Saint Margaret Mary's. Although we were young, I recognized that Rosemary was special. She was a beautiful girl and so kind to everyone. I have warm memories of lazy summer days at Midland Beach with Mike and his friends down from the city. I am truly sorry that she is gone so young. I know you all must miss her terribly.*

“ *Rosemary and I were both in the class of 1964 at Notre Dame College and were in the same circle of friends. I have fond memories of her especially her beautiful smile! She often was laughing or about to laugh! Her buoyant personality influenced me as it was difficult to be in an all girls college run by nuns when the rest of the world around us was breaking all the rules. I know she will be missed by her family and especially her grandchildren.*

“ *We offer Mike and the children and grandchildren our sincerely condolences. Our friendship goes all the way back to the 60's when Mike and I were in law school. It remained a lasting blessing for Carol and the children; all those trips to the Jersey shore among others. We offered our Mass Intention and Communion for Rosemary and the family and will continue prayers for all of you. RIP.*
